

# Australia Awards Scholarship

## 2019 Field of Studies

Australia Awards Scholarships are an important component of Australia's international development assistance to Nepal. The Awards aim to contribute to the long-term needs of developing countries by providing opportunities for individuals to obtain qualifications at Australian tertiary institutions, so that they can contribute to development in their home country. This means that if you are offered this Scholarship, at the completion of your studies you must return to Nepal to contribute to the development of the country for at least two years.

The Priority Sectors and associated Fields of Study for studies commencing in 2019 are set out below:
